# FERROUS Metals

Complete using the Ferrous Metal Video **AND** AQA GCSE Engineering P5 and P6.

**CLASSIFICATIONS OF METALS**

<table>
<tr><th colspan="2">FERROUS METALS</th><th colspan="2">NON-FERROUS METALS</th></tr>
<tr><td colspan="2">Definition…</td><td colspan="2">Definition…</td></tr>
<tr><td colspan="2">IRON</td><td rowspan="2">PURE METALS</td><td rowspan="2">ALLOYS</td></tr>
<tr><td>STEEL<br>(IRON + ……..)</td><td>STEEL ALLOYS</td></tr>
</table>

| **ADVANTAGES OF USING IRON** | | |
|---|---|---|
| | | |

| STEEL | PROPERTIES | USES | REASON |
|---|---|---|---|
| PURE IRON  | | | |
| MILD STEEL<br>(LOW CARBON)  <br>**CARBON CONTENT:** | | | |
| HIGH CARBON STEEL  <br>**CARBON CONTENT:** | | | |
| CAST IRON  <br>**CARBON CONTENT:** | | | |

| **DEFINITION: WHAT IS AN ALLOY?** |
| --- |
| |
| |
| |

| **WHY ARE METALS ALLOYED:** |
| --- |
| |
| |
| |

| **STEEL ALLOY** | **PROPERTIES** | **USES** | **REASON** |
| --- | --- | --- | --- |
| STAINLESS STEEL  12 –18% …….. 10% …….. | | | |
