8 Features of Manufacturing Industries

8.3 – Characteristics, processes, application, advantages and disadvantages and the importance of considering accuracy of production and efficiency of modern manufacturing methods and systems when designing for manufacture for small, medium and large-scale production:

a. Production Scheduling and Production Logistics

Production, Planning and Control (PPC)

Production Logistics

Master Production Schedule (MPS)

- Availability of Parts and Materials…

- Scheduling of Machines and People…

- Coordinating Suppliers and Customers…

Advantages: Production Scheduling and Production Logistics
